8. Enter your existing password in the top box along with a new password twice for validation.
9. Select **Submit**.

The screenshot shows a 'Please set your new password:' page. It includes a list of 'Password Requirements' with a note that the password must be between 8 and 30 characters, contain at least one number, one lowercase character, one uppercase character, and one special character, and cannot be the same as the last 10 passwords. There are three input fields: 'Current Password' (labeled 8), 'New Password', and 'Confirm New Password'. Below the fields are 'Back' and 'Submit' buttons, with the 'Submit' button labeled 9.

10. Select the appropriate registration option.
  - a. Are you at a private computer that you will use regularly to access online banking? If so, we can register your browser for future access. If you are at a public computer, select **Do Not Register Device** and this computer will not be registered.

Note, to register your computer, we will place a Secure Token in your browser. Your PC must be configured to accept 'cookies' from this site. The next time you log on, you will only need to enter your **Username** and **Password**. The number of allowable registrations may be limited for the security of your account.

The screenshot shows a 'Device Registration' page with a note that the access code has been accepted. It has a 'Do Not Register Device' button (labeled 10) and a larger 'Register Device' button.
